EN 14411

Ceramic tiles, dust pressed, for internal wall finishes

Characteristics	Declared values
Reaction to fire	Class A1 (Decision 96/603/CE as amended)
Flexural tensile strength	NPD (Not intended for suspended ceilings)
Bond strength/adhesion	NPD (Not intended for uses subject to requirements against accidental fall of objects on to transit areas)
Release of dangerous substances	NPD

Above table only refers to the minimum requirements which might be imposed by law (per country or application).

For the specified applications of our tiles no legal minimum requirements exist; therefore it is enough to formulate: NPD (No performance determined).

Of course the quality determining parameters are subject to continuous control of our products conforming abundantly to the European product standards' requirements.

These requirements which guarantee a high-quality, can be found in the Technical Specifications in our catalogues and by visiting our website www.mosa.nl.
